

At First Chord, we like to involve students in our monthly newsletter to highlight their achievements and inspire others. This can be through song reviews, performances and student interviews. We understand that not everyone is comfortable sharing information about their child or themselves online.

For performances, these are uploaded to YouTube so we can share them in the newsletter HOWEVER, they are unlisted, therefore only people with the link can view the video.

Students first names and photos are used in three ways.

1. Through our newsletter that is only sent out to our mailing list.
2. Social media posts (Facebook/ Instagram) which are repurposed elements of the newsletter.
3. On our website.
